

# Applying renewable energy within a Christian environmental morality

*How our choice of energy supply affects pollution, climate change, sustainability, security, lifestyle and costs – and what individuals and communities can do to reduce harmful impacts, make savings and become more self-sufficient*

## John Twidell

former Professor of Renewable Energy, De Montfort University

**Friday 19<sup>th</sup> September 2014, 7.30pm**

at The Old Priory, Clarence St., Cheltenham GL50 3LE
